TITLE : Transparency (TS1-TS4)

YEAR : 2007

EXHIBITION : New Works, solo show, Kirkhoff, Copenhagen, DK

MEASURES : 39 x 52 x 3,5 cm

MATERIALS : Transparency film, cardboard, tape

MOUNTING : white cabinet with front glass

EDITION : 3 editions, 1 artist proof

Only by the use of A4 transparency film (which is normally used for overhead projectors) mounted in several layers in different combinations this series of works examines the perception of how the light penetrates the layered transparency film creating vibrant light differentiated surfaces/tones

The visibility of the works depends on the light angle which makes the perception of each work physical because the viewer has to move the body to find the right angle to make the work appear.
